

Diversity Wheel

The inside of the wheel represents identities that are usually most permanent or visible. The outside of the wheel represents identities that are acquired and change over the course of a lifetime. The combinations of all of these identities influence our values, beliefs, behaviors, experiences and expectations and make us all unique as individuals.

1. Which 3 sections are most important to you and your own personal identity?
2. What section of the wheel is most difficult for you to share or discuss?
