

### Inova Health System

Inova is Northern Virginia's leading nonprofit healthcare provider, recognized in 2019 by U.S. News & World Report which named Inova Fairfax Hospital the #1 hospital in the Washington, DC region. Four of Inova's five hospitals hold five-star rankings from the Centers for Medicare and Medicaid Services (CMS). Our mission is to provide world-class healthcare – every time, every touch – to each person in every community we have the privilege to serve. Inova's 18,000 team members serve more than 2 million individuals annually through an integrated network of hospitals, primary and specialty care practices, emergency and urgent care centers, outpatient services and destination institutes. Inova is home to Northern Virginia's only Level 1 Trauma Center and Level 4 Neonatal Intensive Care Unit. Its hospitals have a total of 1,800 licensed beds.

### PGY- 2 Ambulatory Care Pharmacy Residency

The Inova PGY2 ambulatory care residency program was started in 2018 as a partnership with Shenandoah University School of Pharmacy.

We provide clinical and administrative training for pharmacists suitable for entry into a patient care role as a clinical pharmacist and to sit for board certification. Training opportunities include but are not limited to: primary care, clinically integrated network, specialty pharmacy, cardiology, endocrinology, oncology, administration, academia, and transitions of care.

The Inova Health System is a fully integrated health system with a strong clinically integrated network of physicians, robust population health management programs, and a joint-ventured health plan with Aetna, Innovation Health.

Residents are also given the opportunity to develop and enhance their practice management and leadership skills through focused departmental responsibilities.

Areas of experience will include, but will not be limited to:

- Direct patient care in our ambulatory facilities
- Provision of drug information to members of the medical, nursing, and pharmacy staff
- Participation in quality initiatives designed to improve the medication use process, and the costs associated
- Development of a residency research project, including preparation of a manuscript for publication
- Presentation of a seminar, a complicated patient case, and journal clubs to members of the pharmacy staff
- Participation in the Pharmacy and Therapeutics Committee and Ambulatory Sub-Committee and formulary management activities, including preparation of a formulary monographs and medication use evaluations
- Staffing at our retail and specialty pharmacies
